

# TEMESCAL ROOTS

PRESENTS

## 10 Points to Liberation

**"10 Points To Liberation" is a monument to honor the legacy of the Black Panther Party in the Temescal District. The shape of the structure is circular, fluid, and sits comfortably in the space. The imagery features 8 portraits of historical Black Panther Party members. Along with the portraits are elements from the Temescal neighborhood related to the Party's history in the district. There's an image of the 5500 block Market Street sign, where the Black Panther Party was instrumental in installing a traffic signal for elementary school students' safety. There is a silhouette from the original Merritt College building. The "Red Star" is featured, symbolizing the bloodshed of the people fighting for a better future. And the legendary Black Panther logo by Emory Douglas. This structure is designed to be a space for visitors to be stimulated visually and to receive the message of the Black Panther Party's 10-Point Program.**
